

KAI LOUNGE CHAIR

Kai Lounge Chair is a cutting-edge, two-toned metal and upholstery lounge chair designed by American furniture designer Stanley Jay Friedman. With a contoured backrest, created by some of the industry's newest digital technology, the Kai chair is as remarkable for its revolutionary construction as it is for its progressive yet classically modern styling. Kai's crescent-shaped backrest and ample upholstered seat are suspended by a unique hand-finished, two-toned bronzed steel frame. Choose from any of our in-house curated fabrics or leathers or provide COM for upholstery. For more [occasional chair](#) options, please check out our occasional chairs category.
