

SHAMROCK DINING CHAIR

The Shamrock Dining Chair is a universal piece, usable for cafeterias, wine bars, waiting or meeting rooms, and at home alike. Its shape derives from a particular mold, one which creates an invitingly comfortable shell and seat, the latter of which uses slightly flexible and innovative freeform material. Available in many vibrant color options for the shell and with a number of different bases in wood, steel, and lacquered die-cast aluminum, the Shamrock prides itself on its soft, slightly flexible, and innovative material, a polyurethane integral foam.
