

FLATT DINING CHAIR

As the name itself says, Flatt is made from a thin, flat, flexible, and padded form, which is bent to obtain a unique shell. The shell elements are held in place with special steel fixings which simultaneously create an attractive decoration. The shell is suspended, almost floating, on an arc of black coated aluminum, connected to its base using the same material. The slightly flexible shell gives an appearance of lightness but also offers the highest level of seating comfort. PLEASE CONTACT US FOR PRICING
