

OLTREMARE BENCH

We named it [Oltremare](#) Bench, because all things have a soul and every soul has a name. Oltremare encloses within its inlets the classic and the modern. The curve is a line that can be tamed: it forms a wave, a fold, it creates a place but it also offers an escape route. In our utopian world we investigated the relationship between the curved line and the act of seating, asymmetric shapes that become backrests and sink into extremely comfortable seats pushing past the rectangular schemes so dear to the sober lines of designing sofas. The asymmetric curves that enclose it are the inspirations for the Oltremare armchair that completes the collection alongside a padded bench. A comfortable nest suspended on a slim varnished metal base, whose essential lines render, by contrast, the armchair's silhouette even more interesting. Oltremare is a seating system that, even though winks at the past, it communicates a strong contemporary soul and is suitable by nature to various interpretations.
