

## CORDA STOOL

SKU # 136-2-86141

[Corda](#) Stool is a modern chair that can be used both indoors and outdoors. The painted steel structure of this chair is available in two colors, and is combined with the color of the rope, which forms the supporting structure of the seat and back. There are two different types of weaving, both hand woven, to select from. The simplest version, recalls the form of a fishing net, whilst the more elaborate version, (the result of a very laborious technical processing) uses a series of knots similar to those used on sailboats or with ropes used in mountaineering. For the elaborate version there is a considerable increase in the quantity of material used. The Corda Stool integrates well in any environment, whether it is for the outside terrace of a house or in the dining room, the terrace of a restaurant on the seaside, for use inside or outside a mountain cabin or chalet, and even for the poolside or wet room areas. The comfort factor gained by using this material, which everyone will perceive differently, makes this product truly special. Frame and rope are weatherproof, both in cold and hot seasons. For more options, check out our [Bar & Counter Stools](#) category. PLEASE CONTACT US FOR PRICING

### DIMENSIONS

W 21" x D 22.5" x H 45"
