

## BUBBLE BOBBLE FLOOR LAMP

If we were to tell you that we found the inspiration behind Bubble Bobble Floor Lamp from a computer game, what would you say? Soap bubbles perhaps? Both? Recognizable by the three glass spheres of different sizes and available in two distinct finishes, they are supported by thin metal strips, playing with natural light between the spheres artificially created by the shapes. It's an emotional construction, one that senses and creates a room's ambience with ease and elegance, all thanks to a play of a few curious minds. Also available as a chandelier.
